

ENCLOSURES

All models with 60 mm depth, suitable for volume controllers with auto transformers. Enclosures are optional items and to be ordered separately from volume controllers / patch panels.

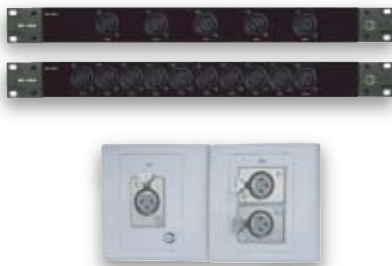

EC7012 : 70 X 120 mm Back enclosure for concealed mounting

ES7012 : 70 x 120 mm Back enclosure for surface mounting

EC9090 : 86 x 86 mm Back enclosure for concealed mounting

ES9090 : 86 x 86 mm Back enclosure for surface mounting

PATCH PANELS

Quality XLR connectors are used in the above series. Other brands of inlets are available upon request.

MR5000 : 5 Way rack mounted female XLR patch panel

MR1000 : 10 Way rack mounted female XLR patch panel

MP1000 : Single inlet wall mounted female XLR patch panel

MP2000 : Double inlet wall mounted female XLR patch panel

RACK PANELS

Available with standard Amperes mounting ears for harmonious look with other amperes equipments.

Panels are available in black powder epoxy coating.

BP1000 : 1 hu blank panel

BP2000 : 2 hu blank panel

VP1000 : 1 hu ventilation panel

VP2000 : 2 hu ventilation panel

POWER SUPPLY

Regulated power adaptor for powering single unit of equipment. Equipments are not supplied with power adaptor and are to be ordered separately.

For larger system, we recommend that proper DC supply to be used with relay changeover for DC back up supply. ie. Amperes PS9400.

PS1205 : 12V 0.5A ac / dc regulated power adaptor

PS2405 : 24V 0.5A ac / dc regulated power adaptor

PS9000 : 24V 4.5A dc switching power supply

SLA BATTERIES

SLA batteries are sold in blocks of 24V (2 x 12V block). Above are common ratings widely used. Other ratings are available upon request.

We recommend that Constant Voltage with auto current reducing charger to be used, ie. Amperes BC9730.

MS12 - 26 : 12V 26 Ah Maintenance free SLA battery

MS12 - 40 : 12V 40 Ah Maintenance free SLA battery

MS12 - 65 : 12V 65 Ah Maintenance free SLA battery

MS12 - 100 : 12V 100 Ah Maintenance free SLA battery
